Specialisms

Brain Injury,
Complex Orthopaedic,
Complex Polytrauma,
Spinal Injury.

Profile

Katie is a conscientious, enthusiastic case manager who thrives on a challenge. She is focused and strategic in her understanding of both the client's needs and the resources required to meet them. She is diligent, caring, and empathic with advanced knowledge of statutory health and social care provision and complex discharge process.

Katie is a highly experienced leader and an innovative clinician who has a robust knowledge of evidence-based rehabilitation and care pathways.

Katie has broad ranging experience in the treatment and management of life changing injuries and conditions including brain injury, neurological disorders, complex orthopaedic and musculoskeletal, spinal injury and polytrauma.

She has worked in a wide variety of both hospital and community health settings. She has proven expertise in treatment planning, goal setting and evaluation for highly complex clients. Katie is an experienced rehabilitation competency trainer.

Katie is a collaborative in her approach. She is committed to providing truly client centred care to ensure people can meet their goals and reach their full potential. She has a good understanding of the litigation process and the need to acknowledge the concerns of all stakeholders. She can work under pressure and meet deadlines. She is effective when working under time and budget constraints.

Testimonial

"Katie has excellent communication skills. Her skills include acting as a professional role model. Demonstrating best practice in the multi-disciplinary setting. Making significant clinical and/or operational decisions requiring expert professional analysis and judgments. Provision of professional leadership, clinical supervision to senior therapists within a wide range of specialties, including long term conditions, neurology, responsive services, rehabilitation. Ability to advocate for staff and patients to ensure a consistent and fair approach. Use of the evidence base to support practice and ensure best outcomes for patients."
