Community

Profile

Natasha is a compassionate and dedicated case manager who is focused on empowering her clients to achieve their rehabilitation potential by building trusting relationships and providing solid support as they navigate their recovery journey.

With 15 years of experience as a physiotherapist in both the NHS and private sectors, she has extensive knowledge in the treatment and management of life-changing injuries and conditions, including complex orthopaedic and musculoskeletal issues, polytrauma, brain and spinal injuries, neurological disorders, respiratory conditions as well as learning disorders and difficulties.

Natasha excels at collaborative work, ensuring the best possible outcomes for her clients, and values efficient and timely communication within the team. She is experienced in motivational interviewing techniques and committed to a holistic client-centred approach, thoroughly assessing the needs of her clients and identifying the resources required to meet them.

She is proactive in facilitating her clients' reintegration into the community and is skilled at working effectively under pressure to meet deadlines and budget constraints, whilst ensuring the best possible outcomes for her clients.

Testimonial

"Natasha is one of the hardest working, most resilient and caring people I know. She also has many years of clinical experience under her belt, both generally, and specifically in neuro rehab. In terms of demanding roles and ability to work under pressure...I take my hat off to her management skills. Natasha is kind and caring, diligent and thoughtful. She would undoubtedly be an asset to your team both for your staff and patients and I have no hesitation in recommending her."
