Profile

With nine years of specialised case management experience, Joanne supports clients living with acquired brain injuries, spinal cord injuries, and complex trauma, as well as their wider families and support networks. Her practice is grounded in a holistic, person-centred approach, ensuring that every client receives tailored guidance that reflects their unique needs, goals, and circumstances.

Joanne has extensive experience coordinating multidisciplinary rehabilitation, navigating statutory and private services, and advocating for clients to ensure they receive the highest standard of care. She conducts comprehensive needs and vocational assessments designed to help her clients rebuild confidence, rediscover purpose, and engage in meaningful activity that enhances their overall quality of life.

Skilled in crisis management, long-term planning, and collaborative problem-solving, Joanne is committed to empowering clients to achieve greater independence, stability, and wellbeing. Joanne brings strong communication skills, professional resilience, and a compassionate, structured approach to supporting clients through some of the most challenging periods of their lives.

Testimonial

“Joanne is very approachable and maintains excellent links with the clients in question, which assists in the smooth running of the deputyship/trust file on our end. I have seen an ability in her to discuss very complex matters with clients at their level, taking the time to consider and explain to the client the pros and cons of a decision and assisting them in this regard.”
