Profile

Samantha is a Case Manager with over 8 years' experience working and supporting individuals and their families who have complex needs.

Samantha excels at supporting people with complex needs. She brings not only professional skill but personal insight, shaped by her own experience of how brain injury affects individuals and families. Her work is driven by a genuine commitment to helping people achieve their goals and live rich, fulfilling lives.

As an experienced Social Worker and Case Manager, Samantha empowers young people and adults to thrive. Her warm communication style and natural ability to build trust make her a confident and skilled leader, while her determined advocacy ensures person-centred care.

She has worked with individuals of all ages and a wide range of needs, including brain injury, neurological conditions, autism, ADHD, learning disabilities, and mental health challenges. Her background as a senior Social Worker has strengthened her ability to coordinate large multidisciplinary teams with calm, confident leadership, ensuring effective care delivery across complex statutory systems.

With deep expertise in disabled children's services, statutory processes, and complex case management, Samantha has led and coordinated teams around Mental Capacity assessments, best interest decision making, Deprivation of Liberty Safeguards (DoLS), Continuing Healthcare (CHC) and funding pathways.

Testimonial

"Working with Sammie has taken the stress out of being a parent with a child with complex needs. As parents it has meant we can be parents. Sammie is professional kind and approachable no request is too big or too small and we always feel so supported, as and when we need it."
- Family Member of Client
