Testimonial

"Jo supported a young client who sustained multi-orthopaedic injuries including a substantial limb difference following RTA with four other friends. Sadly, two of the young adults passed away, one being the client's best friend. The client required significant input from the trauma orthopaedic team including orthotics and precise nail intervention to rectify the limb difference. In addition, our client required extensive psychological support following their bereavement and body dysmorphia. Jo's expertise and dedication supported our client to pursue a career in the police force, rebuilding their life. Without Jo, I feel this would not have been possible." – Solicitor
