Spinal Injury.

Profile

Abigail's conscientious and caring practice empowers clients to be at the forefront of their rehabilitation and recovery.

She is a motivated, enthusiastic, and proactive case manager with excellent communication skills, enabling her to develop strong therapeutic relationships with clients and good rapport in professional relationships. She is organised and thorough in her assessment of a client's needs, environment, and participation in meaningful occupations.

Abigail is an occupational therapist and has more than 20 years of clinical experience in neurological rehabilitation in moderate to severe brain injury and spinal cord injury. She is an advanced member of BABICM.

Abigail works with clients coping with cognitive impairments, challenging behaviours, co-morbidities, mental health concerns, and pre-injury health histories. She is experienced in recruiting support worker teams and providing ongoing training and supervision. Abigail supports and facilitates a client's desire for community living regardless of the complexity of their needs.

Abigail is highly skilled in facilitating complex hospital discharges, assessing, and managing home care packages, organising equipment, advocating for her clients, as well as developing and managing comprehensive client-centred, goal based, outcome measured rehabilitation programs.

Testimonial

"She is superb. She knows brain injury like the back of her hand and that is reflected in the way she has the confidence to put a team of therapists together and knows exactly where to go and upon whom to call to put together the team and progress the client's rehab. She has excellent communication skills and is always happy to speak on the telephone/prepare well thought through and thorough reports which are easy to read and well laid out….She is often instrumental in helping to secure much needed interim funds by agreeing to attend pathfinder meetings with insurers and is always very well prepared and very persuasive."
